- A maternal sister to T 1. I really hate to see this one go.
- Sells bred to STAR TRF 8006 Embracer 229. OCV

The base herd at Parks Farms is tied directly to the maternal influence. Most of our cows trace back to two foundation females TOP MSU Ms 15G 8619 and PDF Miss J45 69M, who excelled in fertility and longevity as well as production. The herd sires in use today were selected primarily because of the history of their mothers, STAR TRF Mallory 46J and Bar B Katrina 522. We have effectively removed the guesswork and locked in the value of longevity, style and production. Our cows will work for you! Check our Web site for more information. www.jparksfarms.com
